Eric DeCamps is the personification of a magician. He is debonair and engaging, enchanting and mystifying. Every one of his performances is filled with compelling stories and visual artistry. Mr. DeCamps has developed a style of intimate conjuring that permits his audience to become part of the performance. The Society of American Magicians awarded Mr. DeCamps the Gold Medal of Excellence for Close-up Magic. He is only the second magician in the 105 year history of the organization to receive this prestigious award.
